

EU ecosystem map

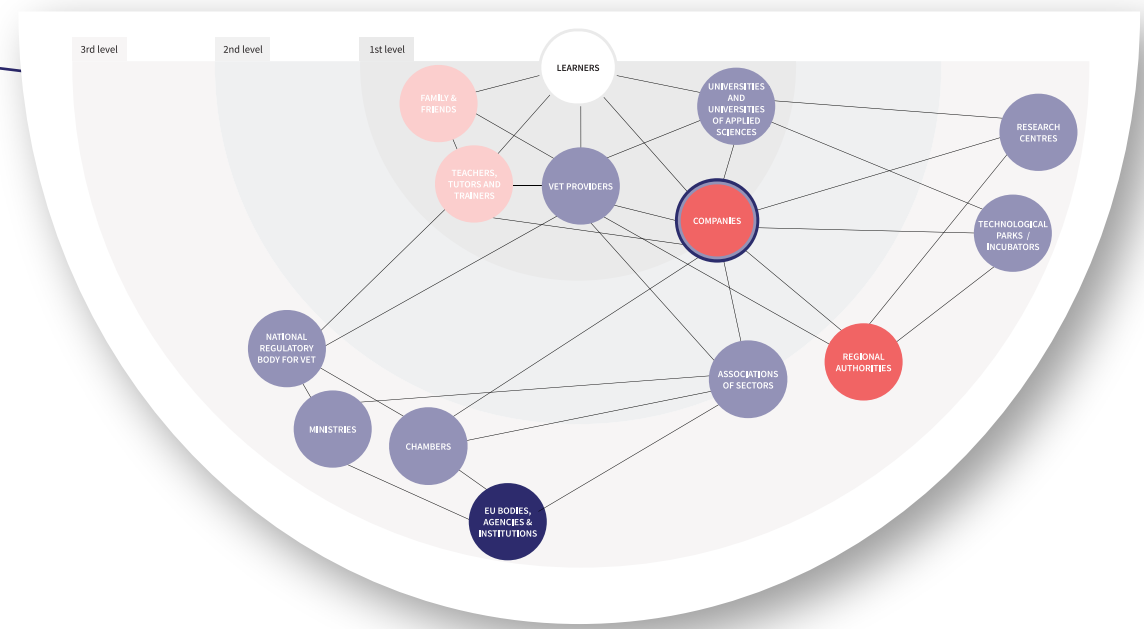

The EU ecosystem map is formed by the combination of regional ecosystem maps and the interaction between them (please check WP5 ecosystem map document for more detail). The regional ecosystems that engaged in the first phase of Talentjourney were Estonia, Finland, Italy and Slovenia. As the project moves forward, partnerships with other European countries will increase, as well as the EU ecosystem map.

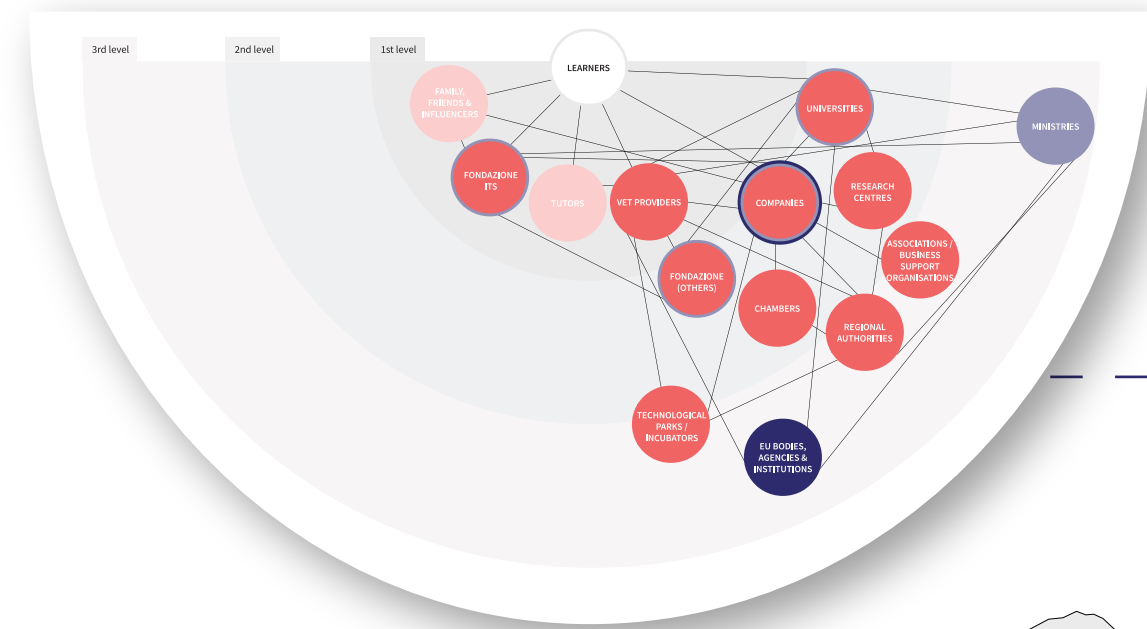

Finland

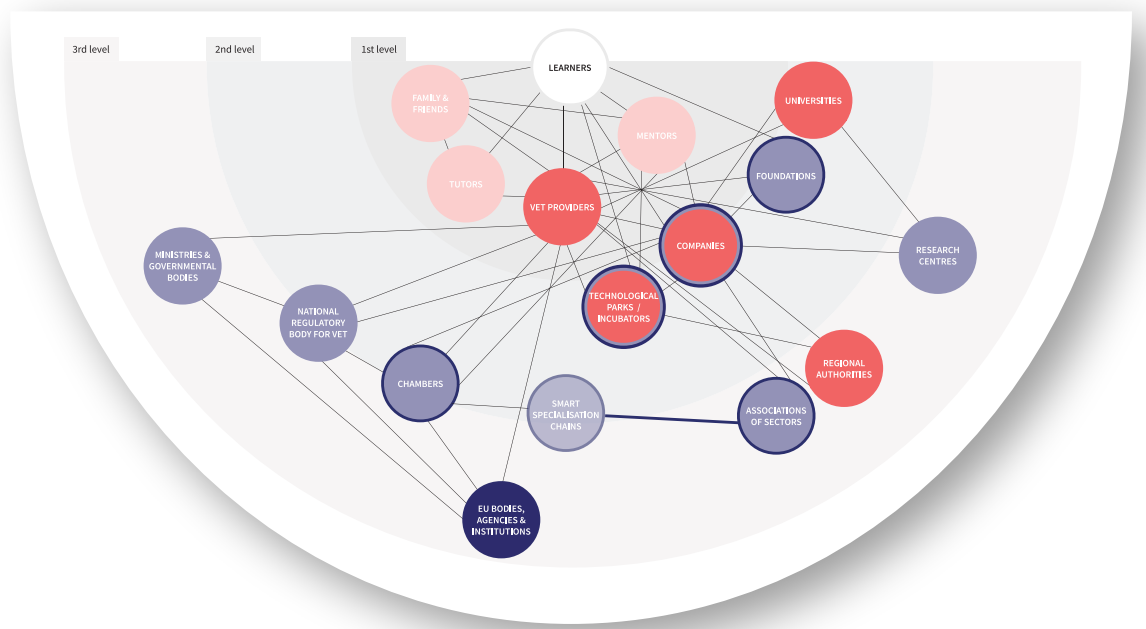

Estonia

Italy

Slovenia

Co-funded by the
Erasmus+ Programme
of the European Union
