

## PROJECT OVERVIEW

The VENHANS project is a KA3 – Support for Policy Reform project, funded by the Erasmus programme, aiming to support EVTA and the other members of the VET4EU2 Platform. EUproVET, a representative platform for European VET providers are hosting this event as part of their contributions and efforts within the VENHANS project.

## CONTEXT OVERVIEW

Artificial Intelligence (AI) has the potential to address some of the biggest challenges in education today, innovate teaching, and learning practices. AI has the potential to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. This event will therefore explore these areas, discussing some opportunities, and how the educational sector is trying to make the first steps of introducing AI into practice.

## SPEAKER LINEUP

The event promises to deliver expertise from a number of highly esteemed researchers within this area including:

- Mrs. Lidija Kralj (EUN Schoolnet)
- Prof. Colin de La Higuera (University of Nantes)
- Prof. dr. Blaž Zupan (University of Ljubljana, Faculty of Computer Sciences)

## ATTENDING THE EVENT

The event will take place on Monday the 20th of June between 1500 - 1630 CET and can be accessed at the following [event link](#).
